Good Morning I.S.201! My name is Esther Chen from class 852, and I am here for the Words of Wisdom Wednesday on behalf of the S.E.A.L team.

Today is World Bee Day, which might sound random at first, but it actually has an important message. Bees may be small, but they play a huge role in keeping the environment balanced. Without them, a lot of the plants and foods we rely on wouldn't exist.

Bees don't work alone, each one has a role, and the hive only works because everything comes together. It's not about one bee doing everything perfectly, it's about consistency and teamwork. That idea applies to people too. When everyone does their part and stays consistent, things run better overall, even if no single action seems huge on its own. In the same way, the choices you make every day matter. How you treat people, how you handle situations, and the effort you put in all have an effect, even if it doesn't seem obvious right away.

Like Sigmund Freud, today's affirmation is: Make space for others to share their stories.

Thank you for listening and have a We All Chip In Wednesday 😊
