November 12, 2026

Good morning, IS 201! My name is Aila from class 813, and I am here with you this Thoughtful Thursday on behalf of the SEAL Team.

Today we are celebrating National S.T.E.A.M. Day! S.T.E.A.M. stands for Science, Technology, Engineering, Arts, and Mathematics. These five subjects help us explore new ideas, solve problems, think creatively, and discover how the world around us works.

Whether you're experimenting in science, creating something artistic, building something amazing, or solving a challenging math problem, S.T.E.A.M. reminds us that learning can be fun and exciting!

Remember, every great invention starts with an idea, and every big achievement starts with curiosity. So don't be afraid to ask questions, think outside the box, and try something new!

The affirmation of the day is, "I can disagree without being disrespectful."

Thanks for listening and have a Technological Thursday 😊

S.E.A.L. Team Pledge

We are the Dyker S.E.A.L. Team

Positivity is our dream

We teach it every day

To help others live the optimistic way

We learn to control our emotions and feelings

So, we always have effective social dealings

No stone left unturned; no person left behind

Every member of our team has the power to be kind

We spread kindness to our friends, families, and those who need a smile

When facing hardships and adversity, the S.E.A.L. Team goes the extra mile
